

The Waste2bio project team participated the «4th International Conference on Sustainable Solid Waste Management» ([CYPRUS 2016](#)) that was held in Limassol on the 23rd–25th of June 2016. The team presented the results of the project implementation while a session dedicated to the production of biofuels from biomass was organised by the project team. Almost 600 people from 52 countries participated the Conference which is one of the biggest in Europe.
